**Stow Parish Archive Group is looking seriously at how to establish a permanent space for the archive that is easily and publicly accessible. We are planning to work with Scottish Borders Council over the next few months to discuss how we can achieve this. The Group feels that a publicly accessible space is essential to the on-going development of the Archive. In the meantime, if you have any material of local interest that you think other people would like to see, please write to:
